SECURITY DEVICES INTERNATIONAL, INC.
(A Development Stage Enterprise)
Condensed Notes to Interim Financial Statements
August 31, 2008
(Amounts expressed in US Dollars)
(Unaudited-Prepared by Management)

1. BASIS OF PRESENTATION

The accompanying unaudited financial statements do not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of all recurring accruals) considered necessary for fair presentation have been included. Operating results for the interim period are not necessarily indicative of the results that may be expected for the year ended November 30, 2008. Interim financial statements should be read in conjunction with the Company's annual audited financial statements for the year ended November 30, 2007.

The Company was incorporated under the laws of the state of Delaware on March 1, 2005.

2. NATURE OF OPERATIONS

The Company is currently in the advanced stages of developing LEKTROX, a unique line of wireless electric ammunition for use in military, homeland security, law enforcement, and professional and home security scenarios. LEKTROX has been specially designed for use with standards issue riot guns, M203 grenade launchers and regular 12-guage shotguns. This will allow military, law enforcement agencies etc. to quickly deploy LEKTROX without the need for lengthy, complex training methods or significant functional adjustments to vehicles or personal equipment. Simplicity of use is also a key benefit for the home security market where most users have little or no specialized training. LEKTROX is a 3rd generation electric solution. First generation solutions were electric batons and hand-held stun guns which had a range of arm's length. 2nd generations were the wired electric charge solutions. 3rd generations are the wireless electric bullets. Currently, there is still no 3rd generation wireless electric bullet on the market.

The Company is in the development stage and has not yet realized revenues from its planned operations. The Company has incurred a loss of $3,669,949 during the nine month period ended August 31, 2008. At August 31, 2008, the Company had an accumulated deficit during the development stage of $10,347,384 which includes a non- cash stock based compensation expense of $4,727,429 and non-cash compensation expense on issue of warrants for $357,094. The Company has funded operations through the issuance of capital stock. During the year ended November 30, 2007 the Company raised $5,779,045 (net of expenses of $279,375) through issue of common stock.

2. NATURE OF OPERATIONS (cont'd)

The Company has a working capital of $2,714,094 and stockholders' equity of $2,740,189 as at August 31, 2008. Management's plan is to continue raising additional funds through future equity or debt financing until it achieves profitable operations.

3. RESEARCH AND PRODUCT DEVELOPMENT

Research and Product Development costs, other than capital expenditures but including acquired research and product development costs, are charged against income in the period incurred.

4. PLANT AND EQUIPMENT, NET

Plant and equipment are recorded at cost less accumulated depreciation. Depreciation is provided commencing in the month following acquisition using the following annual rate and method:

Computer equipment	30%	declining balance method
Furniture and Fixtures	30%	declining balance method

	Aug 31, 2008 Cost	Aug 31, 2008 Accumulated Amortization	Nov 30, 2007 Cost	Nov 30, 2007 Accumulated Amortization
Computer equipment	$ 21,180	$ 6,708	$ 18,387	$ 2,597
Furniture and fixtures	13,740	2,117	8,170	-
	34,920	8,825	26,557	2,597
Net carrying amount	$ 26,095		$ 23,960	

5. ISSUANCE OF CAPITAL STOCK

Year ended November 30, 2007

On December 12, 2006 the Company completed the sale of 2,536,170 shares of its common stock to a group of private investors. The shares were sold in the private offering at a price of $1.00 per share and are restricted securities as that term is defined in Rule 144 of the Securities and Exchange Commission.

The Company had already issued 200,000 common shares on November 29, 2006 and it issued the balance 2,336,170 shares on December 12, 2006. The Company relied upon the exemption provided by Section 4(2) of the Securities Act of 1933 for the sale of these shares.

On March 12, 2007, the Company authorized the issuance of 50,000 common shares at $1.50 per share for a total cash consideration of $75,000 to a consultant who rendered investor relation services to the Company during the quarter ended May 31, 2007.

The market price of the total stock on the date of issuance was $155,000. The difference of $80,000 between the market price of the total stock ($155,000) and the issued price ($75,000) represents the estimated fair value of the consultant's services. The par value of the shares in the amount of $50 was credited to share capital and the balance of $154,950 credited to additional paid-in capital and shown as issuance of common shares for cash and services in the statement of changes in stockholder's equity.

The Company had entered into an amended agreement in February 2007, with a director regarding development of its "Electrical Shocker" ("ES") technology. Pursuant to the original agreement executed in November 2006, the director was paid a total of $38,000 which included $22,000 during the last quarter of 2006 and an additional $16,000 in January 2007. The Company has expensed this payment of $22,000 as Research and Product Development during 2006 and also expensed the balance $16,000 to Research and Product Development in the first quarter of 2007. In addition, the director was paid $62,000 in February, 2007 upon signing the amended agreement. The Company expensed this payment of $62,000 to Research and Product Development in the first quarter of 2007. The director in return had released the Company from a prior obligation to pay royalty from the sale of any product developed using this technology. In the absence of acceptance of the ES technology by the Company, the Company cancelled 1,560,000 shares and the director was paid $50,000 on March 12, 2007 in accordance with the amended agreement. The Company accounted for this transaction under the constructive retirement method in the second quarter of 2007. The cancelled shares reverted to authorized but unissued status.

The stock and additional paid-in-capital amounts were reduced with a total of $15,600 and the Company recognized a loss of $34,400, being the excess of purchase cost over the original issuance.

On April 25, 2007 the Company sold 1,998,500 shares of its common stock to a group of private investors. As part of this same financing the Company sold an additional 140,500 shares to private investors on May 4, 2007. The shares were sold at a price of $2.25 per share and are restricted securities as that term is defined in Rule 144 of the Securities and Exchange Commission. In connection with the sale of these 2,139,000 shares, the Company paid a commission of $240,638 to the sales agent for the offering and incurred legal and other expenditure of $38,737.

The sales agent also received 106,950 warrants which allow them to purchase 106,950 shares of the Company's Common stock at a price of $2.81 per share. The warrants expire in 2009.

The Company agreed to file a registration statement with the Securities and Exchange Commission registering the resale of the shares sold to the investors, as well as the shares issuable upon the exercise of the warrants issued to the sales agent. The registration statement was declared effective on September 20, 2007.

The Company relied upon the exemption provided by Section 4(2) of the Securities Act of 1933 for the sale of these securities.

Nine months ended August 31, 2008

The Company did not raise any capital during the nine month period ended August 31, 2008.

6. STOCK BASED COMPENSATION

Per SEC Staff Accounting Bulletin 107, Topic 14.F, "Classification of Compensation Expense Associated with Share-Based Payment Arrangements" stock based compensation expense is being presented in the same lines as cash compensation paid and accordingly expensed to general and administration expense.

The Company has amended its Non-Qualified Stock Option Plan to increase the number of Common Shares available under this plan to 5,000,000 and filed an S-8 registration statement on June 24, 2008.
During the nine month period ended August 31, 2008, the following stock options were granted: Effective January 24, 2008 the board of directors granted the following options under its Non-Qualified Stock Option Plan:

1. Options to one director to acquire 108,000 common shares. The exercise price was set at $0.10 per share.

2. Options to one director to acquire 117,000 common shares. The exercise price was set at $0.10 per share.

All of the above options vest immediately and have an expiry date of January 24, 2013. Stock based compensation cost of $324,891 has been expensed to general and administration expense.

Effective April 11, 2008 the board of directors granted the following options under its Non-Qualified Stock Option Plan:

1. Options to two consultants to each acquire 300,000 common shares for a total of 600,000 common shares. The exercise price was set at $1.50 per share.

2. Options to one consultant to acquire 150,000 common shares. The exercise price was set at $1.50 per share

All of the above options vest immediately and have an expiry date of April 11, 2013. Stock based compensation cost of $850,067 has been expensed to general and administration expense.

Effective May 21, 2008, the board of directors granted options to an Investor Relation consultant to acquire 50,000 common shares at an exercise price of $2.25 per share. All of these options vested immediately and have an expiry of May 21, 2010. Stock based compensation cost of $56,098 has been expensed to general and administration expense.

The fair value of each grant was estimated at the grant date using the Black-Scholes option-pricing model. The Black-Scholes option pricing model requires the use of certain assumptions, including expected terms,

expected volatility, expected dividends and risk-free interest rate to calculate the fair value of stock-based payment awards.

The expected term calculation is based upon the expected term the option is to be held, which is the full term of the option. The risk-free interest rate is based upon the U.S. Treasury yield in effect at the time of grant for an instrument with a maturity that is commensurate with the expected term of the stock options. The dividend yield of zero is based on the fact that we have never paid cash dividends on our common stock and we have no present intention to pay cash dividends. The expected forfeiture rate of 0% is based on immediate vesting of options.

Date of grant	January 24, 2008	April 11, 2008	May 21, 2008	Total
Risk free rate	5%	5%	5%	
Volatility factor	101.27%	97.80%	100.15%	
Expected dividends	0%	0%	0%	
Forfeiture rate	0%	0%	0%	
Expected life	5 years	5 years	2 years	
Exercise price	$ 0.10	$ 1.50	$ 2.25	
Total number of options granted	225,000	750,000	50,000	1,025,000

Grant date fair value of options	$ 1.44	$ 1.13	$ 1.12	
Market price of Company's common stock on date of grant	$ 1.50	$ 1.50	$ 2.12	
Stock-based compensation cost expensed during the nine month period ended Aug 31, 2008	$324,891	$850,067	$56,098	$1,231,056
Unexpended Stock-based compensation cost deferred over the vesting period	$ nil	$ nil	$ nil	$ nil

As of August 31, 2008 there was $Nil of unrecognized expense related to non-vested stock-based compensation arrangements granted.

7. RELATED PARTY TRANSACTIONS

a) A Company Director has charged the Company a total amount of $4,500 for providing office space during the nine month period ended August 31, 2008.

b) The following transactions are in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

During the nine month period ended August 31, 2008, no director was paid any compensation in cash. All out of pocket expenses of directors were expensed. The Directors were compensated for their services by issue of Stock Options (Refer to note 6).

Effective January 24, 2008 the board of directors granted the following options under its Non-Qualified Stock Option Plan:

1. Options to one director to acquire 108,000 common shares. The exercise price was set at $0.10 per share.

2. Options to one director to acquire 117,000 common shares. The exercise price was set at $0.10 per share.

All of the above options vest immediately and have an expiry date of January 24, 2013. Stock based compensation cost of $324,891 has been expensed to general and administration expense.

8. COMMITMENTS

Effective October 25, 2007 the Company entered into a contract with a consultant for a period of one year which can be terminated by 30 days written notice to either party. The consultant is to provide investor relation services. The company granted 150,000 options to purchase restricted common shares, exercisable at a price of $1.20 per share and expires on January 31, 2010. These options vested immediately and the Company expensed $104,874 to general and administration during the year ended November 30, 2007. The contract with the consultant was subsequently amended on April 10, 2008 whereby these options were reduced to 120,000 options exercisable at $1.20 per share and expire January 31, 2010 and the contract expiry date was amended to expire June 30, 2008. The Company and the consultant agreed that no further options would be issued by the Company. The contract expired June 30, 2008.

8. COMMITMENTS (Cont'd)

Effective April 14, 2008 the Company entered into a contract with a consultant for a period of six months which can be terminated by 30 days written notice to either party. The consultant is to provide investor relation services. The Company will pay the consultant $2,000 per month.

The Company will also grant 100,000 options to purchase common shares, exercisable at a price of $1.41 per share and expire April 14, 2009 only after the Company agrees that the consultant has satisfied all duties. Effective June 19, 2008 the Company advised the consultant that the contract was terminated due to non performance. No options were issued to the consultant.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND PLAN OF OPERATIONS

Securities Devices International, Inc. was incorporated on March 1, 2005 and as of August 31, 2008 has not yet generated any revenue. SDI is a defense technology company which is developing LEKTROX, a unique line of wireless electric ammunition for use in military, homeland security, law enforcement, and professional and home security situations.

During the nine months ended August 31, 2007 substantial all of SDI's cash expenses were related to the development of its LEKTROX technology.

During the nine months ended August 31, 2008:

- general and administrative expenses increased primarily due to increased activity as well as the result of expenses (which did not require the use of cash) associated with the issuance of options and warrants.

- more capital was available to SDI and as a result SDI was able to spend more on research and product development;

During the period from inception (March 1, 2005) through August 31, 2008 SDI's operations used ($4,797,243) in cash. During this period SDI:

- purchased $34,920 of equipment,

- raised $7,769,650 from the sale of shares of its common stock,

- raised $95,000 from three of its officers and directors upon the exercise of options to purchase 950,000 shares of common stock.

SDI did not have any material future contractual obligations or off balance sheet arrangements as of August 31, 2008.

As of August 31, 2008 SDI had:

- completed the tooling and moulds for the 40MM LEKTROX

- developed a fully operational Long Range LEKTROX prototype (37-38MM)

- developed a fully operational Long Range LEKTROX prototype (40MM)

SDI's plan of operation during the twelve-month-period ending August 31, 2009 is as follows:

Activity	Projected Completion Date
Completion of tooling and moulds for 37-38MM LEKTROX	2009

SDI anticipates that its capital requirements for the twelve-month period ending August 31, 2009 will be:

Research and Development	$ 2,100,000
General and administrative expenses	250,000
Total	$ 2,350,000

SDI does not anticipate that it will need to hire any employees prior to November 30, 2008. SDI does not expect that it will need to raise additional capital prior to May 31, 2009. SDI believes that its cash on hand will satisfy its working capital needs until sale of its products have commenced.

SDI does not have any commitments or arrangements from any persons to provide SDI with any additional capital it may need.

Item 3A(T). - Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Sheldon Kales, SDI's Chief Executive Officer and Rakesh Malhotra, the SDI's Principal Financial Officer, have evaluated the effectiveness of SDI's disclosure controls and procedures as of August 31, 2008, and in their opinion SDI's disclosure controls and procedures are effective and ensure that material information relating to SDI is made known to them by others within those entities, particularly during the period in which this report is being prepared, so as to allow timely decisions regarding required disclosure. SDI has determined that these controls and procedures are effective as of August 31, 2008.

Changes in Internal Control over Financial Reporting

To the knowledge of Mr. Kales and Mr. Malhotra, there have been no significant changes in SDI's internal controls or in other factors that could significantly affect SDI's internal controls subsequent to the date of evaluation.

PART II

ITEM 6. EXHIBITS

The following exhibits are filed with this report:

CERTIFICATIONS

I, Sheldon Kales, certify that:

1. I have reviewed this quarterly report on Form 10-QSB of Security Devices International Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the small business issuer as of, and for, the periods presented in this report;

4. The small business issuer's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15 and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the small business issuer and have:

a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the small business issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

c) evaluated the effectiveness of the small business issuer's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

d) disclosed in this report any change in the small business issuer's internal control over financial reporting that occurred during the small business issuer's most recent fiscal quarter (the small business issuer's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the small business issuer's internal control over financial reporting; and

5. The small business issuer's other certifying officer(s) and I have disclosed, based on our most recent evaluation of the internal control over financial reporting, to the small business issuer's auditors and the audit committee of the small business issuer's board of directors (or persons performing the equivalent functions):

a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the small business issuer's ability to record, process, summarize and report financial information; and

b) any fraud, whether or not material, that involves management or other employees who have significant role in the small business issuer's internal control over financial reporting.
